SOVIET JOURNAL OF COMMUNICATIONS TECHNOLOGY & ELECTRONICS

CONTENTS FOR 1992

Number 1

Page

V.K. Volosyuk, V.F. Kravchenko, and V.I. Ponomarev: Estimate of Correlation of Reflected Signals and Natural Radiation Signals of Statistically Rough Interfaces 1

A.S. Zakharov and V.A. Timofeyev: Amplitude-Phase Fluctuations of Millimeter Radio Waves in the Turbulent Atmospheric Surface Layer 10

Ye.R. Milyutin and G.M. Samel'son: Random Displacements of the Ray Trajectories of a Wave in a Turbulent Medium 17

Yu.I. Choni: Efficient Computational Algorithm for Carrying Out Orthogonal Expansions in the Analysis of Adaptation Processes in Atnenna Arrays 22

V.A. Strizhkov: Numerical Modeling of Phased Antenna Array of Nonsymmetrical Log-Periodic Antennas 29

A.M. Lerer, V.S. Mikhalevskiy, and I.N. Semenikhin: Electrodynamic Analysis of the Coupling of Rectangular Waveguides via a Circular Opening 34

A.A. Bykov and I.O. Volkova: Calculation of Natural Waves of a Deeply Corrugated Planar Periodic Dielectric Waveguide 39

M.I. Bakunov and S.N. Zhukov: On the Resonant Transformation of the Polarization of an Electromagnetic Wave in a Gyrotropic Plasma Film 45

A.P. Gorbachev and I.V. Usenkov: Synthesis of Microwave Multielement Directional Filters 51

A.L. Trifonov, A.V. Zakharov, and V.I. Parfenov: Reception Efficiency of a Random Pulse Signal with Unknown Parameters 59

D.V. Gorozhanin, I.A. Dobranos, B.I. Ivanov, and M.I. Kapchinskiy: Theoretical and Experimental Study of Response of H-Resonator When Loaded by an Electron Beam 67

B.I. Islamov, N.A. Kakurina, G.A. Radyuk, and E.N. Rasulov: Focusing Field of Electron Beam Buncher 73

A.A. Vinogradov and A.I. Rogashkova: Theory of the Heating and Ionization of a Weakly Ionized Gaseous Medium in the Field of a High-Intensity Microwave Pulse 77

S.G. Yershov, V.Ye. Zhukov, D.A. Kozlov, and V.V. Korablev: New Aspects of Investigation of PhotoEMF Effect in Semiconductors 84

L.V. Viduta, O.E. Kiyayev, A.G. Naumovets, A.P. Ostanitsa, and R.D. Fedorovich: Electron Emission from Gold and Graphite Films Having a Special Structure in the Presence of a Current Flow and Excitation by an IR Laser 98

S.V. Korolev and A.B. Kiselev: Investigation of Emission Nonuniformity of Porous Molded Oxide Cathode 105

A.A. Aristarkhova, Yu.F. Biryulin, V.N. Karyayev, A.I. Klimin, T.N. Pal'ts, V.A. Pisarevskaya, M.Yu. Timashev, and V.A. Shul'bakh: Emission Features of the GaAsSb System as a Material for Photocathodes with a Negative Electron Affinity 112

L.M. Baskin, L.A. Shirochin, A.A. Kantonistov, G.N. Fursey, and I.N. Radchenko: Field-Emission Processes at a Liquid Conducting Surface in Microwave Field . . . 119

S.A. Gudoshnikov, Yu.V. Maslennikov, and O.V. Snigirev: D-C Relaxation SQUID in Magnetometer for Geophysical Measurements 127

BRIEF COMMUNICATIONS

V.N. Rodionova and G.Ya. Slepyan: On a Consideration of Correction Factors in the Dipole Theory of Rayleigh-Mandel'shtam-Bethe Diffraction 131
M.Ye. Il'chenko, A.V. Zakharov, and Ye.Ye. Karyakin: Series-Type Resonators for Microwave Filters with One Bandpass 135
V.A. Bychkovskiy: Similarity Relations in Microwave Circuits with Lumped-Distributed Parameters 138
V.I. Kislov, A.V. Kurenkov, and O.I. Shanin: Aperture Sounding for Compensation of Large Wavefront Distortions 142

Number 2

M.A. Mironov and V.I. Shvetsov: Optimum Estimation of the Parameters of Signals Observed on a Background of Stationary Gaussian Noise with a Rational-Fractional Energy Spectrum 1
Yu.I. Abramovich, V.N. Mikhaylyukov, and L.P. Malyavin: Stabilization of the Autoregression Characteristics of Spatially Distributed Passive Interference in the Case of Nonstationary Spatial Filtering 10
M.B. Golant, Yu.V. Gulyayev, A.V. Gritsenko, V.N. Efimov, Yu.F. Zakharchenko, and N.I. Sinitsyn: Oscillation Suppression Effect in Multistage Backward-Wave Systems and the Possibility of Microwave Signal Spectrum Conversion Based on This Effect. Stationary States 19
M.B. Golant, Yu.V. Bulyayev, A.V. Gritsenko, V.N. Efimov, Yu.F. Zakharchenko, and N.I. Sinitsyn: The Oscillation-Suppression Effect in Multistage Backward-Wave Systems and the Possibilities for Microwave Signal Conversion Based on Such a System. Nonstationary States 24
M.Yu. Glyavin and G.S. Nusinovich: Stability of Monomode Self-Excited Oscillations in a Gyrotron with Synchronous Mode Interaction 29
S.A. Bulgakov and D.M. Vavriv: Interaction of Low- and High-Frequency Oscillations in Distributed-Interaction Resonance Systems 37
A.G. Lazerson and M.E. Shlyakhter: Electron Suppression of Noise in O-Type Backward Tubes 43
E.D. Belyavskiy: Electron Beam Demodulation After Interaction with Nonperiodic Fields with Transverse Electron Motion 48
M.I. Finkel'shteyn, P.D. Dan'shin, and A.N. Peshkov: Investigation of the Anisotrophy of the Electrical Characteristics of Sea Ice by Means of Radar Sounding of the Surface from an Aircraft 54
L.T. Remizov, L.V. Apraksin, and A.V. Elbakidze: Observation of Variations in Pulse Structure of Natural Radio Emission in the 0.1-30 kHz Frequency Interval during Earthquakes 59
L.A. Mukharev: Hypothesis on the Nature of Atmospheric UFO 65
V.P. Bezruchko, A.V. Kuleshov, V.I. Ponomarenko, and Ye.P. Seleznev: Nonlinear Oscillations in Resonator with Varactor Diode 71
A.F. Aleksandrov, V.L. Vesnin, and V.A. Kubarev: Coaxial Passive Undulator for Rotational Velocity Pumping of Tubular Relativistic Electron Beams 76
N.L. Romashin and V.A. Solntsev: Space Charge Fields of O-Type Electron-Wave Systems with High Interaction Efficiency 83
A.G. Lazerson and M.Z. Shlyakhter: Nonlinear Distortions and Noise in Traveling-Wave Tube with Nonuniform Slow-Wave Structures for Different Types of Phase Velocity Dispersion of the Interacting Wave 88
V.A. Syrovoy: Problems in the Theory of Antiparaxial Expansions in the Optics of Dense Electron Beams 94
V.G. Ivanov: Internal Breakdown Mechanism in Presence of Field Emission of p-Type Semiconductors 106
V.E. Germ, N.V. Mileshkina, and Ye.A. Semykina: Role of Nonequilibrium Processes in Electron Field Emission of Semiconductors 111
R.G. Kryshtal' and A.V. Medved': Microwave Signal Processing Devices Based on the Scattering of Magnetostatic Waves by Surface Acoustic Waves 116

Page

BRIEF COMMUNICATIONS

A.P. Rodimov and S.V. Kobin: Adaptive Space-Time Processing of Wideband Signals in Synthetic-Aperture Antennas 121
I.A. Astionenko and A.P. Motornenko: Small Solid-State Microwave Oscillator . . . 123
Yu.V. Arkusha, A.V. Dyadchenko, and E.D. Prokhorov: Possibilities of Oscillation by $In_xGa_{1-x}As$ Gunn Diodes 126
V.P. Beguchev, Yu.N. Gordiyenko, I.M. Ovchinnikov, I.A. Shefova, and M.N. Shul'gina: Measurement of Photoluminescence of Multialkali Photocathode 129
G.Ye. Zil'berman, G.F. Goltvyanskaya, and I.N. Goltvyanskiy: Acousto-Optic Bragg Resonance at Two Frequencies 132

LETTERS TO THE EDITOR

G.F. Filimonov: Analysis of the Validity of Recommendations [1-3] on the Use of Variable Slowing to Obtain an Electron Efficience η_e = 60-80% in Traveling-Wave Tubes 137
A.A. Kurayev and G.Ya. Slepyan: Response to Letter to G.F. Filimonov Entitled "Analysis of Validity of Recommendations [1-3] on the Use of Variable Slowing to Obtain Electron Efficiency η_e = 60-80% in TWT" 138

Number 3

Yu.I. Abramovich, V.N. Mikhaylyukov and I.P. Malyavin: Test of Interference Stationarity in Adaptive Filtering Systems 1
V.V. Khutortsev: Conditionally Optimum Control of Observations in the Nonlinear Filtering of Markov Processes 11
Yu.G. Bulychev and A.P. Manin: Group-Markov Filtering of the Parameters of Motion of a Target 17
V.I. Prytkov and G.I. Tuzov: Synthesis of a Receiver of Discrete *M*-Radix Messages Transmitted by a Radio Signal with Pseudorandom Retuning of the Operating Frequency 24
A.A. Kurayev, B.M. Paramonov and A.K. Sinitsyn: Some Promising Designs of Microwave Electronic Devices 31
A.S. Tarnovskiy: The Equation of Motion of a Charged Particle in an External Electromagnetic Field in Ellipsoidal and Cylindrical Coordinates 39
V.N. Makarov, V.A. Nedel'ko and L.M. Nutovich: Modeling of the Microwave Heating of Inhomogeneous Media with a Phase Transition 46
V.G. Farafonov: Scattering of a Plane Electromagnetic Wave by a Strongly Oblate Perfectly Conducting Spheroid 50
V.G. Zasovenko, A.A. Kirilenko and V.P. Chumachenko: Distinctive Features of Surface Currents Associated with the Diffraction of Waves by Polygonal Cylindrical Surfaces 58
A.N. Morozov and V.F. Naumov: Diffraction of Electromagnetic Waves by a Periodic System of Coupled Iris Waveguides 63
A.E. Ivanov and S.B. Raevskii: Complex Resonance in a Structure Based on a Circular Two-Layer Shielded Waveguide 69
A.Ya. Blank and A.Ya. Sharshanov: Resonance Excitation of Surface Magnetostatic Waves by Electromagnetic Radiation in Periodic Magnetic Structures 74
E.A. Garova, V.P. Plesskii and A.V. Simonyan: Scattering of Surface Acoustic Waves by Local Surface Resonances 79

Page

V.V. Fisanov: Distinctive Features of Edge Fields in a Chiral Medium 93
V.P. Meshchanov, I.A. Razukova and V.D. Tupikin: A New Structure Arrangement for Short-Length Stepwise Active Wave Impedance Transformers 97
V.F. Taran: Functional Equation for a Long Transmission Line 102
A.A. Ravaev and M.I. Loza: The Microstrip Antenna—An Effective Converter of Microwave Radiant Energy to Steady-State Current 110
V.V. Rozhdestvenskiy and S.V. Sochnev: A Regime of Increased Signal Stability for a Sustained Oscillator with Inertial Nonlinearity 114
G.M. Vorontsov: Largest Noise Signal Values at Output of TWT Amplifier 122
A.A. Kurayev, N.A. Kurayev and A.K. Sinitsyn: Efficiency of O-Type Relativistic Devices with the Electron Interaction Energy Taken into Account 126
S.B. Bimurzayev, R.S. Bimurzayeva and B.T. Sarkeyev: Spatial-Transit Time Focusing in an Electrostatic Lens-Mirror System with Two Symmetry Planes 133

Number 4

A.P. Belousov: On Maximizing the Coefficient of Improvement of a Passive Interference Compensator 1
G.P. Tartakovskiy, V.G. Repin, and A.A. Slepokurov: Testing Multialternative Hypotheses When the *a priori* Probability of One of the Alternatives is Unknown 7
U.S. Valeyev: Electromagnetic Fields Created by a Source in Nonuniform Motion . . 17
V.A. Girka and I.A. Girka: Coupled Azimuthal Surface Waves in a Nonuniform Current-Carrying Plasma Cylinder 23
I.A. Man'kin and P.D. Shaleyev: High-Efficiency Traveling-Wave Tubes 30
M.N. Lebedev and V.P. Ivanov: Experimental Study of a System of Coupled Microwave Oscillators 37
D.M. Vavriv, Yu.A. Tsarin, and I.Yu. Chernyshov: Forced Oscillations of Two Coupled Passive Oscillators 40
S.A. Vyzulin, V.V. Korotkov, and A.E. Rozenson: Ray Paths and Amplitudes of Monochromatic Magnetostatic Waves in a Ferrite Film Magnetized by a Nonuniform Field 48
V.G. Astafurov and N.V. Tyukhteva: Statistical Characteristics of Time Integrals of Photoelectron and Photoreadout Fluxes 54
A.P. Makarov, O.K. Kultashev, Ye.D. Kuranova, Ye.M. Zemchikhin, and Yu.V. Gurkov: Operating Mechanism and Aging of an Osmiated Dispenser Cathode 61
I.M. Korzhenevich: Improvement of Time Response Characteristics of Electron-Optical Converter by Using Spherical Cathode and Grid 66
V.S. Kortov and V.I. Kirpa: Exoelectron Spectroscopy of Irradiated Alkali-Halide Crystals 73
I.V. Chubinskiy-Nadezhdin and A.G. Kamenev: Signal and Noise at Output of Particle Detector Containing Electron-Optical Converter and Multielement Photoreceiver . 80
V.S. Zholnerov: Comprehensive Parametric Optimization of Passive-Type Quantum Frequency Standard in Terms of Accuracy Characteristics 89
Ye.A. Lobanov: On the Accuracy and Resolution of Interferometers when Reflection from the Earth's Surface is Taken into Account 95

BRIEF COMMUNICATIONS

O.A. Zolotov and V.P. Kazantsev: An Analytic Solution of the Problem of the Polarizability of a Circular Ring Aperture in an Unbounded Planar Screen of Zero Thickness Obtained by the Variational Method 103
N.A. Armand and V.I. Grigor'yevskiy: Estimation of the Accuracy of Distance Measurements by the Two-Wave Method 106
G.Ye. Zil'berman, L.F. Kupchenko, Yu.V. Astashev, A.M. Reznichenko, and I.N. Goltvyanskiy: Theory of Second-Order Bragg Diffraction by Ultrasound in Optically Active Crystals 108
M.Ye. Il'chenko and A.V. Zakharov: Filters with a Broad Rejection Band Fabricated from Sections of Regular Transmission Line 111
A.A. Belov and V.V. Bonch-Bruyevich: The Nature of the Anomalous Dielectric Dispersion of Carbon Tetrachloride at Infralow Frequencies 115
D.S. Dobryak and L.G. Petrova: The Effect of Sampling Measurements on the Accuracy of the Prediction of the Territorial Distribution of the Spectral Density of Atmospheric Radio Interference 118

Page

V.V. Kozlovskiy: Synthesis of Strip Waveguides According to TE-Mode Phase Velocity 121
V.S. Dobromyslov and A.V. Kryukov: Radiation Q-Factor of Disk Dielectric Resonators 123
R.R. Gadyl'shin: On the Splitting of the Poles of the Green's Function for the Electromagnetic Analog of the Helmholtz Resonator 128
G.S. Vorob'yev, A.Ya. Kirichenko, A.I. Tsvyk, and L.I. Tsvyk: A Method of Determining the Reduction Coefficient of the Plasma Frequency of an Electron Beam . . . 130
Ye.I. Vasil'yev, V.M. Lopukhin, and V.S. Nikol'skiy: A Theorem on the Kinetic Power Flux for Complex Frequencies 134
A.A. Potapov, T.V. Galkina, T.I. Orlova, and Ya.L. Khlyavich: Method of Isolating Contours of Extended Deterministic Objects in Stochastic Fields 137
V.A. Kashey: Integro-Differential Method of Quantitative Estimate of Duration of Pulse Signal 139
L.I. Antonova, V.P. Denisov, Yu.P. Yashin, and M.S. Galaktionov: Use of Antimony-Cesium-Oxygen Coating in Sources of Polarized Electrons Employing Photocathodes with a Negative Electron Affinity 143

Number 5

Ye.D. Sviyazheninov: A Variational Method for Solving Electrodynamic Boundary-Value Problems Involving Solenoidal Fields 1
E.E. Gasanov: The Paraxial Approximation in the Theory of Laser Beam Focusing . . . 9
I.G. Yarmakhov: A Study of the Diffraction of Electromagnetic Waves by Ideally Conducting and Impedance Wedges with Rounded Corners 15
Yu.V. Troitskiy: Absorption and Scattering of Light Obliquely Incident on a Multilayer Structure with Absorptive Layer Boundaries 23
V.I. Kalinichev and Yu.V. Kuranov: Diffraction of Surface Waves by an Array of Metallic Rods and Analysis of a Leaky-Wave Dielectric Antenna 29
S.P. Kuzyakin and V.V. Shtykov: On One Method for Approximating the Angular Dependence of Wave Phase Velocities 37
V.D. Gusev and S.M. Golynskiy: Polarization of Waves Reflected from a Periodically Nonuniform Layer 42
A.M. Lerer: The Use of Impedance-Type Boundary Conditions in the Design of Dielectric Resonators 50
G.I. Komar' and V.P. Shestopalov: Longitudinal Coupling Between Cylindrical and Mirror Slot Radiators 57
N.L. Aleksandrov and Yu.P. Vinichenko: On Several Methods for Designing Finite Waveguide Arrays 65
Yu.D. Bespyatov and M.Ya. Yakovlev: Polarization Processes in Birefringent Optical Fibers and Noise in Optical-Fiber Angular Velocity Sensors 72
V.M. Butorin: A Coaxial Probe in a Rectangular Waveguide 78
A.V. Vashkovskiy, V.I. Zubkov, E.G. Lokk, and V.I. Shcheglov: Refraction of Surface Magnetostatic Waves by the Boundary Between a Ferrite Medium and a Ferrite-Insulator-Metal Medium 85
R.V. Anashkin, Ye.I. Glushankov, L.V. Kolosov, and V.V. Yatsuk: The Use of Signals with Special Phase Modulation to Solve Problems of Interference Shielding and Jamming under Conditions of Conflict 92
Ya.N. Fel'd and L.S. Benenson: Diffraction-Slot Antennas (Review of Theory and Design Methods) 100
S.V. Titov and Yu.P. Kalmykov: On the Theory of Molecular Absorption of Centimeter and Millimeter Radio Waves in Oxygen 122

BRIEF COMMUNICATIONS

S.P. Leshchenko, S.A. Gorshkov and Ya.D. Shirman: Principle of Obtaining Two-Dimensional Radio Images When There is Insufficient Azimuthal Resolution 131
A.B. Yesichev and V.D. Il'yushin: Minimization of the Aureole of a Hot Electron Beam in a Long Transit Channel 133
S.B. Bimurzayev and Ye.M. Yakushev: Time-of-Flight Chromatic Aberrations of Electron-Optic Systems with a Rectilinear Optic Axis 136
N.V. Paladiy and A.F. Kharchikov: Investigation of the Intermodulation Components in Magnetostatic Wave Filters 139

Number 6
